

Country:	France
Input material:	C&I waste, bulky waste
Throughput:	15 t/h < 300 mm
Scope of delivery:	XR3000R with frequency inverter, technic container

“So, when we saw the shredder’s specification on paper this wasn’t enough. We therefore travelled to UNTHA’s Austrian headquarters to watch the XR Ripper in action. During trials, the machine certainly surpassed our throughput expectations, demonstrating impressive robustness and uptime too. We were also very impressed with the low energy consumption of this modern technology. We now have a machine that will support our plant’s performance whilst upholding our commitment to the environment.”

Eric Bourgade (Production Manager)
